Each player has a different goal, so they need to **think ahead** to get the best score. **Simple rules** create a system **full of strategies** to be discovered, and yet easy to learn and play.

## HOW TO PLAY

- 1** Place a card with the **lit side up** adjacent to any other card.
- 2** **Flip** the cards indicated by the **filled circles** in the light bulb.
- 3** The **ON** player gets points by the largest adjacent group of lit lights.
- 4** The **OFF** player gets points by any light that's turned off at the end!

## HIGHLIGHTS
